HLTAID001 Provide cardiopulmonary resuscitation

This unit of competency describes the skills and knowledge required to perform cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) Guidelines.

This unit applies to all workers who may be required to provide CPR in a range of situations, include community and workplace settings.

Course is open for anyone working in any kind of industry responsible to provide safe workplace to meet the obligations in case of accident or injury e.g. persons working in hospitality, construction, healthcare, childcare, job sites, offices, security and for those who want to gain knowledge and learn these lifesaving skills.

Prerequisites for Course

There are no prerequisite for this unit, however training packages describes the candidates must have Foundation Skills (language, literacy and numeracy) that are essential to perform oral communication in order to make an accurate verbal report to emergency response services and workplace supervisor.

Course outcome

The HLTAID001 Provide cardiopulmonary resuscitation unit of competency is derived from the HLT Health Training Package and is accepted by WorkCover.

On successful completion of this training program a Statement of Attainment in **HLTAID001 Provide cardiopulmonary resuscitation** will be issued to the participants. Students will receive their Statement of Attainment within five working days from the date of completion of the course through express post.

Australian Resuscitation Council (ARC) guidelines indicate that a (Cardiopulmonary resuscitation) CPR qualification should be renewed every 12 months and that a First Aid qualification should be renewed every 3 years.

Course Duration and Delivery Method

Comprising 2-3 hours of self-study (**no self-study is required for students doing CPR refresher training**) and pre assessment; and 3 – 3.5 hours of classroom based practical training, theory and practical assessment.

Refresher Course

Refresher course requires 3 – 3.5 hours of classroom based practical training, theory and practical assessment. There is no pre study required. Students attending CPR refresher course are advised to bring their current certificate.

The competencies to be achieved during the training program

- Recognise an emergency situation
- Identify, assess and minimise immediate hazards to health and safety of self and others
- DRSABCD
- Assess the casualty and recognise the need for CPR
- seek assistance from emergency response services
- Learn correct procedure for performing CPR and use of Automated External Defibrillator (AED)
- Accurately conveying incident details to emergency response services
- Reporting details of incident to workplace supervisor as appropriate
- Maintaining confidentiality of records and information in line with statutory and/or organisational policies

Assessments and Course Procedure

Submit expression of interest to the advertised course by contacting through our website, email or on phone
